

CASE STUDY

EXPERT PARKING SYSTEMS HAS REDUCED DESIGN TIME, INCREASED EFFICIENCY AND BUILT BETTER PRODUCTS USING SOLIDWORKS PREMIUM.

In today's world, where the rapidly increasing population and number of cars have made conventional parking methods non-feasible, Mr. Haresh & Mr. Aalekh Chandan, with their two decades of knowledge and experience in the real estate industry, recognized the need to offer innovative car parking solutions by establishing **Expert Parking Systems Private Limited**.

We are the dream team that builds, installs and maintains car parking systems across India. We're solution-oriented. We make extremely superior quality, car parking systems. Our parking solutions are installed in residential, commercial complex's in India. We very closely work with architects, developers and government bodies to provide customized solutions for each project.
